MOTIVATION LETTER

Hello “Big kitten”,

I am Aygyul Shaban Apturahim.

One beautiful, sunny, autumn day when I was in a café with friends I got fortune slip with my coffee with inscription “Success.” Then I decided to participate in this professional, wonderful competition, knowing that I have no other choice. Besides, the other reason to participate is that my Tom-Cat i.e. my mommy said that if I didn't do something useful in the near future, she would kick me out from home. How sad!

I am the perfect candidate for you because I am positive, smiling, kind, motivated, problem-solving, adaptive, good in teamwork.

When I grow up and become a “Big kitten” I want to become a very successful kitten (a kitten that has a choice). I want to step bravely on my paws and do not to expect “Whiskas” from another cats. I do not want to obey the “meows” of others. I want to have a successful career and a bright future like my highlighter.

I do not know what I want to work in IT industry, because I do not have professional experience in this industry. Maybe I want to try and get start with work related to Databases, like Data Analyst, or QA, I am not sure what I want. I want to have

the opportunity to try any position in this industry and specialize in a specific field. I want to have a successful career, make good money and have a big house with pool, BBQ zone and vineyards.
